SUMMARY

I am a Software Development passionate of information technology and application development, with skills for rapid learning and with a growth mindset. As part of my soft skills, I have good communication, great teamwork, adaptation to all types of work environment and capacity for constant improvement based on self-criticism.

EXPERIENCE

Software developer

Country's supply system – Universidad Cenfotec

May 2023- August 2023

Website where companies or people register to hold an event, where said event can have physical or virtual tickets. My achievements in this project were:

- Creating SQL Server connections and integrations by creating the data base structure, the relationship between the tables and creating the stored procedures to manage the information on it.
- Implement an authentication system based on security roles and authentication using C# and the existing identity tables.
- Realization of a complete module for tender management using a Model-View-Controller, with an n-layer project design, using .NET 6, CSS, HTML and JS.

Software developer

Airport schedules– Universidad Cenfotec

May 2022- August 2022

An application whose purpose is that users can always check the status of flights, both arrival and departure. My achievements in this project were:

- Creation of the diagram, design, and modeling of the database tables, along with the configuration of the connection between it and the back end.
- Creating the different layers together with the methods for manipulating the project database using java.
- Creation and design of the project screens for application navigation with JavaFX.

EDUCATION

Bachelor's degree in software engineering

Universidad Cenfotec | San José, Costa Rica

2022 - Present

Senior Technician in Software Development

Universidad Cenfotec | San José, Costa Rica

November, 2023

High school bachelor's degree

Colegio Monterrey | San José, Costa Rica

December, 2015

CERTIFICATES AND COURSES**Scrum Fundamentals Certificate**

Scrum Study | San José, Costa Rica

February, 2023

SKILLS**Languages:**

Spanish and English

Technologies, tools, and software skills:

Git, Azure DevOps, Development Design Patterns, Scrum, and Agile Methodologies.

Development languages:

.Net, JavaScript, HTML 5, CSS, SQL, Java.
